

Environmental Policy

FUGRO-BKS Limited is involved in the provision of geographic information products and services including photography, mapping and surveying. The company recognises that good management includes all environmental matters and will ensure that environmental protection and the prevention of pollution are part of all decisions, policies and practices. The Company shall endeavour to work towards the following objectives:

- Comply with relevant environmental legislation, regulation and other applicable requirements.
- Provide for the publication of the Environmental Policy internally, by displaying the document in the Company and externally to all interested parties, on request.
- Provide for the setting and achieving of environmental objectives and targets for the Company, to reduce the impacts of its identified Significant Aspects and secondly for the publication of the environmental objectives and targets to all employees.
- Maintain efforts to achieve continual improvement in the environmental performance of the Company, the starting point is to comply fully with the requirements of ISO14001:2004.
- Ensuring that operations at the FUGRO-BKS site are carried out with full control on all aspects, which may have an environmental impact e.g. atmospheric emissions, water and energy usage.
- Foster openness, dialogue and discussion with employees, customers, suppliers, contractors and all interested parties regarding the environmental performance and related issues including this policy and the environmental objectives and targets of the Company.
- Measure environmental performance by conducting regular environmental audits and assessments of compliance with the Environmental Policy, relevant environmental legislation and the targets and objectives of the Company.
