

## Quality Policy

FUGRO-BKS Limited (F-BKS) has been in the aerial survey, mapping and supply of geospatial data business for over 45 years and its expertise is recognised worldwide.

The Quality Policy within F-BKS is to ensure that customer standards and specifications are met in a cost-effective way, and products or services are fit for their intended use and supplied on time.

To achieve these Objectives, F-BKS has implemented a Quality Management System conforming to ISO 9001:2000, as described in the Company Quality Manual.

Our Quality Policy is geared towards meeting our customers' expectations in full. While meeting this primary policy objective, we will endeavour also to control and review objectives and, where possible, improve our processes in order to ensure that operations are conducted economically and effectively.

Our Policy is the result of a Planning Process that will result in the establishing of a set of Objectives intended to deliver our Business policy to Customers and employees. These Objectives will be agreed with those tasked with delivering them, and will have associated programmes for their delivery. We will review the Quality Management System periodically through the QMS Board by examining how well our programmes are being delivered, and shall modify our Objectives and Policy where required, taking into account the technology developments and client requirements.

The Systems Administrator, as authorised by the General Manager, is responsible for maintaining and developing the Integrated Management System.

F-BKS shall provide and manage resources necessary to deliver Objectives, and to provide safe and suitable conditions for all our employees and for the members of the public directly affected by our operations.

F-BKS shall use monitoring and measuring techniques to assess on an ongoing basis, how the services we provide meet the expectations of our customers, also how well our own internal processes are operating. This information will be analysed and used to continually improve the business where possible.

F-BKS shall make this Policy and the resultant Objectives known to our employees and will demonstrate our belief in it through our own personal commitment and involvement.

A handwritten signature in blue ink that reads "Alan Campbell".
