Press Release

BKS CONTRACT NEWS

BKS Surveys Ltd has secured a major contract to supply Atlantic Geomatics (UK) Limited, Consultants to the Government of Gibraltar, with digital mapping for the entire land area of the 'Rock', a unique landscape measuring 6.4km². The Gibraltar Digital Mapping Project will ultimately produce a powerful geographic database containing land classification and natural and man-made permanent features down to street level detail.

The comprehensive vector data will be used to build a topologically structured database that is ultimately bounded by the Spanish border and coastline. A Digital Terrain Model with a precision of 0.1metres will also be created, providing unprecedented depiction of the distinctive topography.

James Cochrane, BKS Photogrammetric Services Manager commented, ' We are delighted to have been chosen to undertake this challenging project and look forward to using our extensive range of skills in geographic database construction to provide the accurate, up-to-date information our client requires'.

Notes to Editor

ABOUT BKS

BKS Surveys Ltd is a major supplier of geo-spatial data services to Government and Private Sector Business's in the UK and Ireland. From its Headquarters in Coleraine the company provides a range of topographical and terrain surveying services using land and aerial techniques. Customised 2 & 3D geo-spatial information can be provided for a wide range of applications: e.g. planning, water engineering, transportation, power transmission, utilities, land management, architecture, visualisations, environmental impact studies, etc. An ISO 9001:2000 approved company, BKS assists clients with the development and integration of their geospatial data into a functional Geographical Information System or specific Software Application.
