News Release

FUGRO-BKS PUTS THE ENVIRONMENT FIRST

Coleraine-based survey company, Fugro-BKS Ltd, has achieved Global ISO 14001:2004 Environment Management System (EMS) certification from BSI.

ISO 14001, an internationally recognised standard for EMS, helps organisations demonstrate environmental commitment to their stakeholders, clients and employees, while better managing environmental impact and risk.

Organisations seeking ISO14001 accreditation must identify specific impacts such as carbon emissions, energy use, waste management and implement environmental management programs to control and improve their performance.

Alan Campbell, General Manager said, "I am delighted to have achieved the ISO 14001 standard. We have a commitment to our customers and the communities we serve to reduce our environmental impact through effective environmental management and improvement. Achieving this standard shows we have achieved the delicate balance between maintaining profitability and reducing environmental impact, which has been achieved with the commitment of the entire organisation."

Notes to Editor

Fugro-BKS Ltd is a major supplier of geo-spatial data services to Government and Private Sector Businesses in the UK and Ireland. From its Headquarters in Coleraine the company provides a range of topographical and terrain surveying services using land and aerial techniques. Customised 2D & 3D geo-spatial information can be provided for a wide range of applications: e.g. planning, water engineering, transportation, power transmission, utilities, land management, architecture, visualisations, environmental impact studies, etc. An ISO 9001:2000 approved company, Fugro-BKS assists clients with the development and integration of their geospatial data into a functional Geographical Information System or specific Software Application.

The Fugro General Business Principles govern how each of the Fugro companies which make up the Fugro Group conducts its affairs. Fugro employees share a set of core values – honesty, integrity, transparency and respect for people and the environment. We believe that incorporating these values as basic elements of our business dealings will result in professional high quality services to our clients and build the trust of our stakeholders.

***All Fugro Companies** have a systematic approach to health, safety, security and environmental management in order to achieve continuous performance improvement. To this end, Fugro companies manage these matters as critical business activities, set standards and targets for improvement, and measure, appraise and report performance*
